

RE: Recommendation for VSI and crew

Dear Jay,

I write this letter in recommendation of VSI Construction, Inc. as a general contractor. I had the pleasure of working with Garen Nitzschke (estimator), Marty Sutherland and the crew (named below) on the remodel of 8 bathrooms and an employee locker room at our corporate headquarters located in Vadnais Heights, MN.

As promised, the entire project was completed within 3 months, all while remaining mindful of the budget. During this time, Marty and crew were very professional and respectful of our employees, allowing for 'business as usual'. Security requirements were followed and enforced throughout the project. Sub-contractors were held to the same high standards.

In addition, the entire crew took special care to prevent the job dust from trailing throughout the building. They were clean and tidy and made noticeable effort to avoid leaving the worksite in disarray. This was much appreciated by the executive team and entire staff of IC System.

I am happy to furnish more details if you would like additional information.
